Experience

At Peachtree City Foamcraft, we use a proprietary plastic coating to encapsulate and protect our structures from the effects of freeze-thaw, mechanical impact and abrasion. This durable polymer provides protection that far exceeds the requirements of any City, State and Federal zoning authorities.

We understand that every day is not 75 and sunny. To prove our signs are the best, we tested our monument structures under real world, extreme weather conditions - from sub-zero temperatures to desert heat. The results of our testing prove your monument sign will stand the test of time.

Poly-Armor™ @ 60 mils 1lb Expanded Polystyrene
