

**Certificate of Allocation of RECs**

I, Kevin Maddaford, declare on behalf of Summit Energy Services that:

1. RECs in the amount described below, associated with electric power generation from renewable resource(s) listed below, are hereby Allocated to City of Worthington in accordance with the terms of the Purchase Agreement entered into between Summit Energy Services, Inc. and City of Worthington on the 18<sup>th</sup> day of March 2021. Further, I certify that the RECs are associated with power generated from the renewable resource(s) listed below:

**Clean Source – US Wind 2021e**

Facility Name: Grant Wind  
Location: Oklahoma, USA  
EIA Number: 60013  
Capacity: 50.6 MW  
Commercial Online Date: 4/8/2016  
Generation Period: August 2020  
Volume: 3,853 MWh

2. Summit Energy Services represents and warrants the environmental attributes, including any attendant emission reductions, that are the subject of this Certificate of Allocation, have not been and will not be sold, reserved, or conveyed to any person other than City of Worthington and the electric power generated in association with these RECs has not been represented to retain or possess, and will not be represented as retaining or possessing, such attributes.

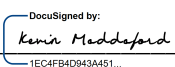

3. Summit Energy Services represents and warrants that the RECs that are the subject of this Certificate of Allocation will be retired by Seller on behalf of Purchaser in accordance with the requirements of the Green-e Energy program on or before the first day of June 2022, and that such retirement will be certified by the Center for Resource Solutions.

As an authorized agent of Summit Energy Services, Inc. I have authority to submit this report on behalf of Summit Energy Services.
